

I am making this comment to tell you how I feel about the potential implication of a LPFM broadcaster. If this were to go through, I would lose Air1 radio, a great station that I listen to constantly. I believe that Air1 belongs on the airwaves because it does a lot for local communities. It can bring communities together by the music and messages that they play on Air1. I know that many people support Air1 across the country because they are a non-commercial station. That is one of the things I enjoy about Air1 radio. I can't stand listening to commercials for 15 minutes on other radio stations. Please think of the negative impact that would be caused if you force Air1 off the air.
